

TALAL ABSAR

SENIOR ANDROID ENGINEER

+971507057899, talal.absar619@gmail.com, Abu Dhabi – UAE
[Linkedin Portfolio Github](#)

PROFILE

Senior Android Engineer with 11+ years of experience designing, developing, and maintaining high-quality Android applications across fintech, banking, government, and consumer technology sectors in the UAE. Deep expertise in Kotlin, Clean Architecture, MVVM/MVI, Coroutines, Flow, Jetpack Compose, REST APIs, and third-party SDK integration. Proven track record of delivering performant, scalable, and user-centric applications serving millions of users. Strong advocate for clean code, TDD, code reviews, and Agile best practices.

SKILLS

Languages: Kotlin, Java, Dart (Flutter), Rust, Swift

Architecture & Patterns: Clean Architecture, MVVM, MVI, SOLID Principles, Software Design Patterns, Functional Programming, Multi-Modular Architecture

Android Core: Jetpack Compose, Coroutines, Flow, LiveData, Room Database, Retrofit, Dagger 2, Hilt, Navigation, DataStore, Material Design, Android Jetpack Libraries, Kotlin Multiplatform (KMM).

Testing: TDD, JUnit, Mockito, Espresso, MockK

Tools & Methodology: CI/CD, Git, Jira, Firebase, Gradle (Kotlin DSL), Agile, SCRUM.

Other: REST, JSON, XML, Dependency Injection, Data Structures & Algorithms.

AI & Tools: Claude AI, GitHub Copilot, Cursor

WORK EXPERIENCE

Lead Android Engineer | Astratech (Botim) | 2025 – Present

- Owned and shipped analytics-driven engagement and campaign features for Botim, a consumer super-app with 100M+ downloads, enabling targeted user interactions and data-driven product decisions.
- Integrated Amplitude and MoEngage analytics SDKs enabling cross-platform behavioural tracking across millions of active users, improving campaign targeting accuracy by 30%.
- Resolved critical Mini-Program issues reducing crash rates by 25% and improving overall app stability and user experience.
- Implemented Footprint analytics middleware in Rust interfacing with C++ design ensuring scalable and consistent event tracking.
- Built Quest Card campaigns and AI image upload features improving user engagement and content workflows.

Senior Software Engineer – Android | Abu Dhabi Islamic Bank | 2023 – 2025

- Designed and developed scalable Android applications serving 1M+ users using Kotlin, Clean Architecture, MVVM/MVI, Coroutines, and Jetpack libraries.
- Implemented complex banking workflows including account conversion, onboarding, payments, authentication, and face recognition, reducing onboarding time by 30%.
- Optimized application performance through architectural refactoring, improving app responsiveness by 25% across a diverse range of Android devices.
- Implemented PCI-compliant secure transaction flows handling 100K+ daily transactions with biometric authentication, IBAN validation, and real-time financial computations.
- Built complete ADIB Products suite covering account creation for Savings, Investment Deposit, Takaful, and Amwali products.

Senior Android Engineer | Toggle Market | 2020 – 2023

- Developed Bill of Quantities (BOQ) module enabling structured cost estimation and material planning, reducing manual procurement effort by 40% for hospitality clients.
- Built buyer-side purchase order and supplier-side invoice generation flows enabling end-to-end digital procurement between 500+ buyers and suppliers.
- Refactored legacy Java modules to Kotlin reducing codebase size by 20% following Clean Architecture and SOLID principles.

Software Engineer – Android | Multi Level Technology | 2016 – 2020

- Built and delivered Android applications for government clients including Abu Dhabi Judicial Department, Dubai Taxi Corporation, and Dubai RTA serving 100K+ daily users.
- Integrated EMV payment SDK supporting Visa and Mastercard transactions via Swipe, Insert, and NFC Tap across 800+ deployed POS devices handling 10K+ daily transactions.
- Optimized POS application performance achieving zero downtime across 800+ deployed taxi devices, reducing transaction processing time by 20%.

CERTIFICATIONS

CompTIA Security+(In Progress)

ISO 27001 Lead Auditor(In Progress)

EDUCATION

Sir Syed University of Engineering And Technology

Bachelor of Science in Computer Engineering 2010 - 2013
